

## How to Disable Download Protection Temporarily

1. Open Chrome and click the three dots (menu) in the top right.
2. Select Settings.
3. Go to Privacy and security and then click Security.
4. Under the Safe Browsing section, select "No protection (not recommended)".
5. Confirm your choice by clicking "Turn off" in the pop-up.
6. **Important:** Re-enable this security setting after you've downloaded the file.
